## GIANTS GRAB SEVENTH BY 2 TO 1 SCORE

Douglas Scores His Second Triumph Over Carl Mays in Stiff Pitching Battle; McNally Injured in Sliding

"Home Run" Baker Is Given Another Chance in Series, But Fails to Slug As of Old; Victors Need 1 More

By JACK VEICK,  
International News Service Sports Editor.

POLO GROUNDS, NEW YORK, Oct. 12.—Riding to victory on the strong right arm of "Shufflin' Phil" Douglas, their big spitballer, the Giants are on the way to the world's championship, Douglass said, adding while the fighting marks in the seventh game of the world's series here this afternoon, 2 to 1, in the hardest fought and most exciting game of the series.

More, he took the Carl Mays to another cleaning, winning two out of three games pitched against the Yankee ace. The result of Douglas' victory, the Giants not but one more to clinch the title. The series now stands four games to three in favor of McGraw's men.

**CARL MAYS GREAT EVEN IN DEFEAT.**

Mays was great in defeat for it was through no fault of his that the Giants got the break in the luck that enabled them to plow over the winning run.

With two down in the seventh inning, Ward, who had been playing an almost uncanny game, second, booted a grounder off the bat of Johnny Rawlings, who later scored on a triple.

A big Columbus Day crowd of more than 35,000 saw the game.

Both teams threatened in the initial inning. In the Yankee half Peck hoisted with one on, only to do on base. In the second inning the Yanks started trouble. Pipp, first up, slapped a double against the left field fence and was sacrificed to third by Ward. McNally then poked a single through the Giant infield and Pipp was home.

The Giants got to Mays in the fourth and tied up the count. After one was out Young hit to Ward and was safe at first. He stole second as Kelly struck out, for the eighth time since the series opened and brought in the coveted run on Meusel's timely single to center.

**FIRST SIX TIGHEST INNINGS IN SERIES.**

Through the first six innings the game was tight and the most fiercely fought of the series. Then came the break, when the Giants won the game. In the seventh, after two were down in the last half, Rawlings got a base, when his rival, Ward, booted his grounder. Big Frank Snyder was the next up, and his slashing two-hopper to right center brought Rawlings home with the single that broke the tie.

POLO GROUNDS, Oct. 11.—The Giants won the nine-pitching pitcher battle from the Yankees this afternoon by a score of 2 to 1. The spitballer Douglas won the decision by a hairline over the underhanded flinger Mays.

Ward's error of an easy grounder, after 2 were out in the seventh and Snyder's two-base hit laid the American-leaguers low. The series now stands Giants 4, Yankees 3.

Attempt Made to Assassinate Mrs. Elizabeth Tyler, Head of Woman's Department of the "Invisible Empire"

ATLANTA, Ga., Oct. 12.—Several .32-caliber steel-jacketed bullets and the trail of footprints that ended at the road, were all county police had to start on today in their inquiry into what they characterized as an evident attempt last night to assassinate Mrs. Elizabeth Tyler, head of the woman's department of the Ku Klux Klan.

Orders from Washington, which will bring about the consolidation of the Pacific and Atlantic fleets, are expected momentarily at the headquarters of the Twelfth naval district in San Francisco. And the receipt of these orders, it is predicted, will bring about the establishment at Alameda of an adequate base for the big armada.

"I think I ought to correct your impression about the expectation of universal disarmament. It is very erroneous even to suggest that we contemplate going so far as to say that we can get a reasonable limitation, we shall think that great things have been accomplished."

You replied that my letter seemed to bring to you a message of hopelessness to those seeking universal disarmament and asked me to explain reasonable limitation.

By reasonable limitation I mean something like this: I believe that there is a chance to accomplish rather than substantial results, rather than an ideal that there would be no chance to realize. It is necessary to deal with actualities; to do best possible. Universal disarmament would be beyond hope of realization; even its desirability at this time might well be questioned. The other 9, however, are loaded with deadly bullets—and no one knows which are the 9!

The commander is ready to give the word "Fire!"

At this moment up rushes another man.

"I offer to each of you," his voice rings out, "a policy of life insurance as protection against the possible death that faces you!"

Suppose YOU were one of the 1,000—wouldn't you jump at this man's offer?

An overdrawn example? No.

At age 35, 9 out of every 1,000 men will die within a year. And the most tragic part of it all is that, in addition to the sorrow, their death brings want and sufferings to many wives, children and aged parents.

Every man has two great obligations; he must take care of his loved ones, no matter what may happen, and he must make wise provision for his own old age.

## TEN LOST TRIBES' OFFER GREATEST WORLD MYSTERY

Countless Investigations To Determine Their Fate Prove Fruitless.

The mystery of the "Ten Lost Tribes" has been a subject of absorbing interest for many centuries but, despite the investigations of countless historians and the excavations of archaeologists in all parts of the globe, the question of what became of this great mass of people is still unanswered.

Hundreds of volumes have been written on the subject and many explanations have been advanced as to the probable fate of the people who severed their alliance with the tribes of Benjamin and Judah the latter remaining in southern Palestine and establishing Jerusalem as their capital. The Israelites who seceded went northward some into Samaria and others into the country which lay outside the narrow stretch of land which then made up the known world. As to the fate of those who populated Samaria, some little is known for about eight centuries before Christ Sargon King of Assyria swept down upon Samaria and carried many thousands of its population into captivity replacing them with Babylonian and Syrian colonists and, according to the former residents throughout the kingdom so that their identity as a nation was completely lost.

TWO TRIBES SURVIVE. With their captives, the remaining members of the ten tribes disappeared as completely as if they had been swallowed up by the earth and no definite trace of them has ever been discovered. The descendants of the two remaining tribes were also conquered at a later period and while they, too, were finally driven away, they possessed so strong a personality and racial cohesion that they endeavored despite the bitter opposition to which they have been subjected, throughout the centuries—keeping intact their religion, their history and their customs.

This being the case it is doubly remarkable that the other ten tribes, numerically greater than the tribes of Judah and Benjamin, should have vanished so completely. They could not all have been slain or perished in captivity due to descendants and it is to be presumed that they migrated somewhere—but where? This is the question which has puzzled archaeologists and historians for centuries. Some writers are of the opinion that the "lost tribes" long afterwards appeared as the lawless, gallant Anglo-Saxons, a race whose origin is still more or less obscure. Other European nations have also been "traced" to these lost Israelites while a few commentators believe that they became merged into the nationalities of other conquerors and those of the peoples among whom they settled.

Of special interest to Americans is the opinion of a number of writers that the lost tribes in some way—probably by means of the vast overland "bridge" which later sunk into the surface of the Pacific—found their way to this country and became what were later known as "Indians" and "Aztecs." Among those who most firmly believed this were the early Spanish priests who settled in America, as also did Roger Williams, Cotton Mather and many later theologians and scientists who found Indian dialects which had words and names singularly suggestive of those of our country.

In 1768 Charles Beatty, a missionary, wrote that he was certain that he had found traces of the "lost tribes" among the Delaware Indians, declaring that he had seen an ancient scroll which contained portions of the original Hebrew law.

But, despite all the theorizing and guessing as to the ten lost tribes, no positive evidence has ever been made with respect to their fate. There are many sections of the globe where they could have settled and flourished as an independent nation, the archives of no known people describe such a settlement and barring the as yet unexplained origin of such races as the Indians, the Hawaiians and the Aztecs—no trace is to be found anywhere of the missing Israelites. ## \$157,000 Creamery Plans Approved

The erection of a \$157,000 creamery at the University Farm at Davis will follow the action of the board of regents of the University of California, who at their meeting yesterday approved the specifications for the construction of the building. The plans are the result of three years' study by university authorities and the creamery, it is said, will embody the latest ideas upon such construction.

David P. Barrows, president of the university, announced that among the recent accessions to the museum of anthropology is a skull from Gorda, Monterey, the gift of John Wesley Coulter of Piedmont. The skull comes from a region where cremation was practiced by the Indians and in which relics are scarce.

The tentative plan call for the construction of the creamery before the beginning of the 1922 college term.

Former Field Marshal Refuses Gift; Turns It Over To Wounded Men.

BERLIN, Oct. 12.—The financial plight of some former high army officers, who, deprived of government pay which was their only income, have been reduced to straitened circumstances, has caused a movement among former soldiers to help them by donation of sums ranging from \$1 to \$10 marks. Only a few of the needy officers, however, have consented to accept such charity. Former Field Marshal Conrad von Hoetzendorf, declining a donation of 4000 marks, wrote:

"I am not complaining, and I feel I have little cause to complain when I think of the many wounded men who have even less than this. This money shall go to help them."

Von Hoetzendorf and his wife are living at Innsbruck, occupying a small room in which their meals are prepared on an electric stove. The

## Day of Atonement Ushered In by Temple Services

Observance of Yom Kippur, the Day of Atonement, began at Temple Sinai last night and will continue until sundown tonight. The chief feature of the musical service was the world-famous Kol Nidre melody, composed by Dr. Max Reger. Dr. Coffey took his evening sermon.

The complete misunderstanding the world has for the Jew, was the thought chiefly emphasized. He said, in part:

"As the visitor enters the executive mansion at Sacramento, the first sight he beholds is the large statue of a queen rising from the throne, and representing Jews from her neck. Before him stands a column, and the inscription tells us that Queen Isabella is handing her jews to Columbus that he may secure funds to undertake his western journey which was to discover the new world."

That story is absolutely false, and the statue, because it perverts history, should be removed from the capital grounds. Not Jews, but Jews discovered America. Scientist

former field marshal's income amounts to less than 1200 German marks monthly.

Many former high officers have been compelled to leave Germany for Austria and Poland, where their German marks have a greater purchasing power. Others have taken low-salaried positions in the German provinces, where the cost of living is low.

Considerable sympathy for these men recently has been manifest even in liberal, socialist, radical and anti-monarchistic quarters, and the newspapers have been advertising the seriousness of their situation.

## CHURCH SERIES OF MUSICALES ON TOMORROW

Although technically the duties of the present officers of the Oakland Ministers' Union, which held its monthly meeting yesterday in the Y. W. C. A., ceased with the report of the nominating committee, the officers were forced to go on with their duties, by the action of the committee. The reason was simply that only one member of the nominating committee was present so that no recommendations for nominations were possible.

## New Charter Condemned And Defended at Meeting

BERKELEY, Oct. 12.—In an impromptu debate before the Men's Club of St. John's Presbyterian church, on College avenue, last night, between Max Thelen, speaker of the evening, and Charles Spear, member of the Board of Freeholders, drawing up the consolidation charter, Spear admitted that he was unopposed in the small degree of self-government permitted individual boroughs in the proposed charter, a dramatic peroration of the debate came when Spear flatly refused to submit to Thelen an itemized estimate of savings he said would be effected by the proposed consolidation.

Thelen, in his address, condemned the charter as depriving the various municipalities of control over borough activities. The charter, he pointed out, is far different from the government of New York, where boroughs have real powers.

**GREATER HOME RULE.**—"I regret with Mr. Thelen," said Spear, "that the charter does not permit a greater degree of home rule in its consolidation of the ten Alameda county municipalities. New York is not truly a consolidation, however. All they wanted there was the name of Greater New York. The boroughs are not economical. They spend money like water. The charter does not follow the New York plan."

Spear cited Los Angeles as a valuable example of consolidation of municipalities and, pulling from his typewritten document, from his speech, quoted several departments in the various cities that would be consolidated, he said, with considerable saving to the taxpayers.

Purchasing supplies at wholesale for the entire county, he asserted, would save thousands of dollars.

"That's all right, Charlie," said Thelen. "All we want is an itemized statement of the savings you propose to make. Will you give us that kind of statement?"

**ESTIMATES WANTED.**—

"Well, no," said Spear. "If I did, you would not believe it."

General laughter from the hundred or so business men at the dinner-meeting greeted Spear's remark.

"We are not ready to make our estimate public yet," Spear continued. "If we did you would only ridicule it and tear it to pieces."

"Well," said Thelen, "in other words, you seem to be joining Dr. Pardee in his headlong flight whenever definite figures are sought."

"Control of the schools and the police and fire departments, as well as of all other municipal activities, would be turned over to a metropolitan council, which Berkeley would have a majority," said Thelen in the course of his address before the club, before Spear rose to reply to him.

**COUNCIL OF SEVEN.**—

"The metropolitan council would be composed of seven members, elected by districts," he continued. "Berkeley north of Shattuck avenue would have one councilman, while south of Shattuck, together with many, would have a second member of the metropolitan council. If they voted the same way, Berkeley would have two votes out of the seven. If they voted on opposite sides, you can easily figure how much voice Berkeley would have in the council."

"Suppose they do show a saving by consolidation with Oakland. I do not propose to sell my birthright as a citizen of Berkeley, with our ideals of what the school and police departments should do, for a few cents reduction in the tax rate."

The members of the Men's Club greeted this assertion with continued applause, and asked a number of questions of Thelen as to various features of the charter.

Stanley Pedder, president of the

**Given No Voice.**

"Berkeley is justly proud of its police department and of its chief of police, but under the charter this department will be wiped out, and Berkeley cannot even say how many patrolmen shall be assigned here, much less name the officers. The chief of police and the patrolmen will be city and county police, named by the manager."

"These same conditions apply to the fire department."

"Advocates of the charter assert that under the consolidated government taxes will be lower. We have tried earnestly and in all good faith to get details of these proposed savings, but have failed."

Ten years ago Oakland tried to sweep Berkeley, and failed. Then they waited until the night before the election to put full page advertisements in the newspapers presenting figures of alleged savings to be effected by consolidation. There was no chance to answer these figures. We hope that no such tactics will be followed by those backing the present consolidation charter.

**BUT PAY THE BILL.**—

"It is well to remember that while the individual boroughs have no jurisdiction over their respective police and fire departments, they will pay all the bills for the police and firemen in their districts, as well as other expenses for local administration, plus an additional tax for the central government maintenance."

Thelen's speech was received with applause. He spoke informally, without a manuscript. Spear's reply was unexpected, and there was some discussion at the speakers' table of the man's speech. At Thelen's request, however, the chairman allowed the member of the board of freeholders to speak without interruption.

## CHARTER REVIVES WARD POLITICS, IS OPPONENTS' VIEW

Evils of Old System To Re-  
turn if Merger Passes,  
Berkeleyans Assert.

BERKELEY, Oct. 12.—That the proposed consolidation charter would return a return to the worst evils of ward politics, without possibility of redress either by residents of the smaller municipalities or by the citizens at large, is the warning issued by the Association of the Berkeley Defense Corps, in a meeting at the Chamber of Commerce. Leaders from all sections of Berkeley urged a campaign of education to show local citizens the dangers of the proposed government.

The metropolitan council, which would elect or nominate mayor, said Thelen in the course of his speech, "and the mayor would appoint the superintendent of schools and the nine members of the board of education, one from each of the seven districts and two at large. In other words, the control of school affairs would be removed from the school board once through the appointment of the mayor, and second through the appointment of the school board."

"Now the framers of the present charter of Berkeley, while they succeeded in shortening the ballot, realized that the schools are particularly near and dear to the citizens. For that reason they provided that the members of the school board should be elected directly by the people. Today in Berkeley we have direct control of the schools through the ballot."

The mayor, under the proposed charter, will appoint the three members of the civil service commission. With the exception of the court of officials and the district attorney, auditor and assessor, all other officers will be appointed by the manager, who will be appointed by the metropolitan council.

**CITY'S POWERS LOST.**

"Berkeley will not be able to say who shall be on the police force, or how many patrolmen there shall be here, or what pieces of fire apparatus should be apportioned to this borough, or who the firemen shall be."

"Each borough shall have a board of trustees, under the proposed charter, elected by the borough. Appropriately enough, they will serve without pay, for they will have almost no powers. Few powers are given the boroughs. Recommendations as to the opening and closing of streets; acquisition of parks and playgrounds, and expenditure of money from the budget as submitted by the manager. In this regard, Section 190 states that the metropolitan council may reject all recommendations of the boroughs, excepting for the expenditure of additional sums to be raised by borough taxation."

"The only powers left to the boroughs is to decide when streets shall be closed and opened, establishment of parks and playgrounds, and expenditure of money from the budget as submitted by the manager. In this regard, Section 190 states that the metropolitan council may reject all recommendations of the boroughs, excepting for the expenditure of additional sums to be raised by borough taxation."

"The freeholders might have proposed a borough system such as they have in New York, but they did not do so. Instead they have gone further than any other American community has gone in depriving citizens

## Pardee to Speak At Rotary Club

At a meeting of the Rotary club tomorrow noon in Hotel Oakland, George C. Pardee, president of the Charter League, will speak in favor of city and county consolidation. He will have twenty-five minutes in which to explain the charter and voice his arguments and then five minutes will be given the opposition for rebuttal. W. E. Gibson, president of the Alameda County Anti-Division League, will be the speaker. A week later Gibson will deliver the twenty-five minute address in opposition to the charter and five minutes will be allowed a Charter League speaker in reply.

The Real Estate Board heard Pardee speak for consolidation at a meeting today. The board has consented to hear, at next week's meeting, the other side of the question, and a speaker will be assigned by the Anti-Division League.

Charter Will Be  
Discussed Monday

BERKELEY, Oct. 12.—Arguments against consolidation will be presented at next Monday evening's meeting of the Berkeley Defense Corps at the "Dugout," Alton Way below Shattuck Avenue.

It is expected that Max Thelen, former president of the railroad workers' union, will be the speaker.

**NO BOROUGH SYSTEM.**

The charter, several speakers pointed out, would not provide for a borough system, like that of New York, as it would not allow the present smaller municipalities any important degree of self-government.

**Missionary 'Mother's  
Funeral Date Fixed**

BERKELEY, Oct. 12.—Funeral services will be held at 1:30 o'clock tomorrow afternoon at 2805 Fulton street, for Mrs. William Klinefelter, widow of Rev. William Klinefelter, known as the "mother of missionaries." Mrs. Klinefelter, not only sent four children to mission fields in the Orient, but following the death of her husband established a home in Manila, which was open at all times to missionaries.

Miss Klinefelter was born in Ohio twenty-three years ago. Much of her married life was spent in Iowa, where her husband was a minister in the Evangelical church. Twelve years ago they came to the bay region.

Five children survive. They are: Rev. R. H. Klinefelter of Honolulu, Mrs. John E. McCallum of Atlanta, Mrs. John E. McCallum of Berkeley, Mrs. Arthur Ut of Baltimore and Mrs. Ralph Rader of Bozeman, Mont.

"Step Lively" To Be Produced Saturday Night Under Auspices of De Molay.

With a cast of 100, including some of the best known young amateur performers of the city, "Step Lively," an extravaganza, will be produced at the civic auditorium Saturday night by the Oakland Chapter of the Order of De Molay for the purpose of raising money for uniforms for their drill team.

Clare Sheridan, sculptor and writer, now visiting California in quest of impressions for her informal diary, believes that Americans could for a good time would find the American party is "always noisy." Mrs. Sheridan writes in her American diary appearing in the October Metropolitan. "I can't make out why one should be unable to hear oneself speak. I think it is that they talk in a higher key than we do. They have a great sense of camaraderie and when they get together to have a good time, it is bewildering. I wonder what they think?" I should think they could be deadly."

In "Mayhem in Moscow" and other literary efforts, Mrs. Sheridan has won an international attention.

With bobbed, blonde hair, large grey eyes, and somewhat above medium height, Mrs. Sheridan is a striking figure.

## AGED BARBER IS BEATEN, ROBBED

Fred Rau, 71 years old, was robbed and beaten by two hold-up men early last night at Tenth and Brush streets while he was on his way home from work.

The bandits were both armed but not masked. Rau told him to put his hands up and keep them in the air or they would kill him. One of the bandits kept him covered with his revolver while the second man searched his pockets. They took \$2 from the old man.

As the bandits were about to leave one of them grabbed Rau by the throat and choked him while the other hit him on the cheek with his revolver.

Rau, who is a barber, is employed at 484 Ninth street. He reported the case this morning to Police Inspector Joe Enright and William Haldeman.

Being good is creditable, but still more creditable is being good for something.

### Why Children Need The Burnham Super-Tone Phonograph

The "Burnham" is a playmate to them. Keeps them out of mischief. Plays for them to dance or romp, or sings or tells them stories.

But it gives something greater than amusement. The "Burnham" in a home helps shape the mental growth of children, helps form their character and tastes, helps educate them, which is a great help to every mother.

The "Burnham" is three wonderful Phonographs in one. Space will not admit of telling you all about it, but if you will call at our "Burnham" Parlor, we will soon convince the most skeptical, as well as critical, that the above statement is absolutely true. Ask us to prove it.

"Super-Tone Reproduction" of superior musical quality, and practically eliminating the familiar disagreeable "scratch", results from the "Burnham System" of tone reproduction, combining the latest discoveries in acoustics.

Through the "Burnham" exclusive and patented features—the Burnham new method reproducer, the patented tone arm, the silver grained violin spruce throat and amplifier—the "Burnham" alone of all phonographs gives Super-Tone Reproduction.

It's a pleasure to pay for a "Burnham Super-Tone" on our new easy monthly plan. Full description of the different models by mail on receipt of the coupon. If not convenient to call, but be sure and call if possible. Our sales people will give you every consideration, even if you are "just looking around." To buy

## Women Voters To Hear Views On Charter

By EDNA B. KINARD.

The charter for the proposed consolidated city and county government is the key note of the club meetings during the coming month. Women who cast their ballot for or against the charter will have a reason for their acts. They are going deeply as time will allow into the pros and cons and summing up before their forums the outstanding leaders who are for or against the instrument. When election day arrives, November 15, women will be fully equipped to speak their minds as effort and fair play may dictate.

Oakland Center, California Civic League of Women Voters will give over Friday to a study of the charter which will be offered to the voters. E. Vandeventer will sponsor the document. Joseph R. Knowland will represent that large group who are opposed to government under its provisions. Neither man will be given the opportunity to enter into a personal debate. They have been asked through Mrs. O. E. Chaney, chairman of the program, to present the issue fairly and squarely. Following the addresses, the women will be permitted to ask questions bearing directly upon the charter. Mrs. I. E. Danford, chairman of civics, will be on duty on the day. In accordance with the new system, a program of music will supplement the talks. Mrs. C. D. Slaughter will offer a group of vocal numbers, assisted by Mrs. Robert Battison, violin; Mrs. Waldo Rueter, piano.

How laws are made will be explained to Fruitvale Woman's Club at the October meeting of next week. Mrs. Anna L. Taylor, assemblywoman from Berkeley, will be the speaker. Fruitvale Woman's Club will play Santa Claus this year to the children in the Beulah Home, according to a decision made at the last board meeting.

Abe P. Leach will be the speaker before the Business and Professional Woman's Club tomorrow, meeting at luncheon in Hotel Harrison. He will review the Boy Scout movement, particularly in Oakland. Community singing will be led by Miss Zanette W. Potter.

Mills College alumnae, students and well-wishers will pilgrimage to the Piedmont residence of Mrs. William E. Sharon on Saturday afternoon for the card party which will be announced as a benefit to the Endowment Fund. The afternoon about the card tables is one of a series which will be arranged for the winter to help swell the alumnae's gift to the \$1,000,000 fund. Mrs. Sharon will be assisted by a large group of leaders in the Mills Club of Alameda County.

Nationalism in music was discussed yesterday afternoon before Petaluma Woman's Club, Miss Elizabeth O'Connor the speaker. A reading by Mrs. Guy Carpenter. The October calendar announced a number of interesting events, including a card party on Friday, a second one on October 24 and a food sale on Saturday, October 25.

Petaluma claims to have the largest group of organized women in Sonoma county, with a membership of 260.

## WOMAN CLOSING STREET CAR DOOR PAINFULLY HURT

The man who broke three fingers and two ribs trying to open a Pullman car window now must share his niche in the Hall of Fame with Mrs. Althea Shea, aged 21, 1821 Chestnut street. Mrs. Shea last night dislocated her right shoulder closing a door on a street car.

Mrs. Shea, with her husband, boarded a car and turned to close the partition door behind her. The jerk she gave, with her arm twisted, dislocated the shoulder. She was taken to the Emergency hospital, where the dislocation was reduced.

Candle Lighting to Mark Y.W.C.A. Meet.

The Candle Lighting ceremony at which the new members light their candles from those of the old, symbolizing the carrying on of friendship, will conclude the Membership Recognition service at the Y. W. C. A. Sunday at 4 p.m. A large number of women and girls who have won will be the honored guests. Miss Frances Duval is in charge of the arrangements.

Musical numbers will be rendered by Misses Billie Hibbard and Mrs. Bruce of Berkeley. The sermons to the new members will be delivered by Rev. John Snape, pastor of the First Baptist church.

The Friday night millinery class meeting from 7 to 9:15 p.m. in room 68, will continue the season through December 16. Enrollments are still being received.

## MISS DONNELLY TO SING AT CONCERT

An interesting group of arias by Rossini, Verdi and Puccini will be rendered tomorrow night by Miss Myrtle Cläre Donnelly, lyric soprano soloist, upon the opening concert of Paul Steinfort's fall and winter season of "pop" orchestral concerts on Thursday nights in the Oakland Municipal Auditorium arena. The

program will feature a Caruso memorial.

Miss Donnelly will sing the aria "Una Voce Poco Fa," from the "Barber of Seville," by Rossini; the "Ava Maria," from Verdi's "Othello," with violin obligato by the concert master, Emilio Meriz; the aria of "Mimi," from "La Bohème," and "Gavotte," from "Manon Les Coquins," by Puccini.

The Caruso memorial will include at least two arias by Caruso, played upon a large phonograph, with the full orchestral accompaniment. Included will be "Celeste Aida" and "Vesta la Glubba," the latter from "Pagliacci."

Among the orchestral numbers will be the "Hymn to the Sun" from "Iris," by Mascagni; a fantasy on

"Boito's 'Mefistofele,'" the celebrated minuet from the ever-popular "La Traviata."

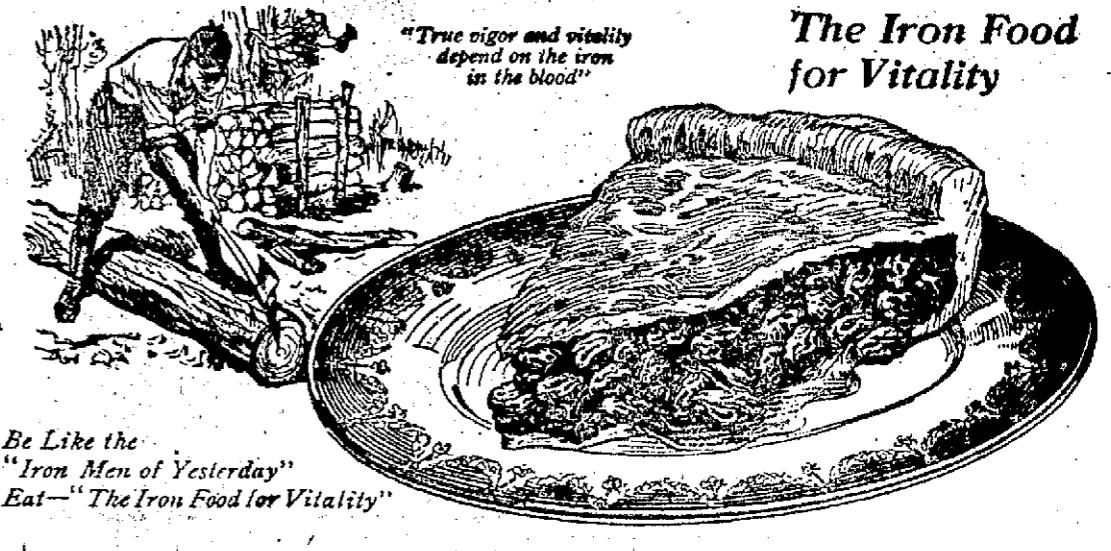

Steindorf is reviving his popular "pop" concerts of a few seasons ago, offering the best in music at popular prices. The next concert will be Thursday night, November 3, and thereafter on each Thursday night the Auditorium is available.

## MOVE IS MADE TO CUT NUMBER OF AUTO CASUALTIES

Step Is Taken by S. F. Club to Rouse Public to Hazard.

SAN FRANCISCO, Oct. 12.—The first step toward cutting down the toll of death and injuries claimed by automobile accidents, was taken here today by a newly formed organization, which began an exhaustive investigation into the causes of the majority of motor vehicle casualties.

For the express purpose of minimizing the traffic hazard public officials, members of the police and fire departments, automobile and railroad men and others interested in public safety, met last night at the headquarters of the Commonwealth Club and pledged their efforts to the furtherance of the movement.

Men in every branch of the city government and executives of large public service corporations agreed unanimously on the traffic hazard committee, put into effect by the trade section of the club. An investigating examination was commenced today by subcommittees and a report will be made to the club in December, when it will decide what legislative action is needed to cut down the increasing number of accidents, most of which are caused by reckless driving, heedlessness and disregard of traffic laws. The movement, it was said, will spread to the East Bay region, where the majority of the accidents occur.

### LAWS DISREGARDED.

J. R. Molony, chairman of the traffic section of the Commonwealth Club, declared that an increasing disregard for the traffic laws and a widespread disregard for principles of safety had influenced the governors of the club to inaugurate the campaign.

David P. Barrows, president of the University of California, and other prominent educators and scientists, who last night's meeting that they will co-operate in the plan of the traffic committee in its educational program in institutions of learning.

The program as outlined last night by Molony includes the following:

A research of legislative action taken in the state regarding traffic; the education of utility interests and public school children in safer first principles and traffic laws; an attempt to compel drivers of automobiles and other vehicles to come up to standards set by law; the cooperation of steam and electric railroads for the reduction of accidents; a proposal for more stringent enforcement of traffic laws by police and courts; and finally a psychological analysis into reasons for the general disregard of laws.

### FATALITIES INCREASE.

Molony said that since 1908 automobile fatalities had increased from 4,36 per cent per million population to 33.61.

"There have been remedies offered to reduce traffic hazards," he said. "Personally, I think the speed limit for automobiles is too great. Perhaps the traffic laws may have to be changed in this regard. There seems to be an general disregard for the traffic laws, the public and the traffic authorities. Another thing that must be corrected is the driving of cars by persons physically and mentally unfit. There should be a compulsory examination executed by law of all drivers."

"This organization formed tonight will be called upon to go into every phase of this situation and we will eventually get some place."

### Four Officials Quit During 'Dope' Probe

HONOLULU, Oct. 5 (correspondence of THE TRIBUNE)—Developments following rapidly upon the capture of opium valued at \$84,000 during the process of smuggling it off the T. K. I. liner Tenyo Maru, in port here last Friday, today resulted in the forced resignation of four customs inspectors.

Collector of Customs Harry Murray believes the investigations, particularly concerning the unearthing of one of the biggest opium smuggling rings in Honolulu's history, Two men—Frank Santos and Isamu Hiraku, are under arrest. The four men whose resignations from the service were forced are: J. L. King, J. K. Bunker, D. O. Mookin, and V. A. Palakko.

When Murray took over the office a few weeks ago he began to study the opium-smuggling system.

Investigation led to the suspicion of the Bonninton, the old gunboat that blew up in San Diego harbor and that now serves as a water-tender in Honolulu harbor.

A week of activity resulted in a succession of hauls of Hongkong No. 1 smoking opium, totaling 300 tins and valued at the wholesale market price at \$128,000.

### Autumn Festival Set For October 29

An autumn festival as part of the recreation department's annual Play Day for the elementary schoolgirls is announced at Morrows park on Saturday, October 29, at 10 a.m. A procession of floats, Nature and other refuse of attendants will present the program of music and dance.

Morrows playground children will give the opening chorus, "Come, Ye Thankful People, Come." The dances of the Spirits of Autumn, including fruits, foliage, vegetables, corn, pumpkins will be presented by children of Golden Gate, De Fremery, Park Boulevard and Harrison playgrounds.

Mrs. B. A. Hollington, pageant director under the Oakland Recreation department, is in charge of the program.

Two Play Days for Girls are arranged for this month to accommodate the large numbers who participate. The dates are October 22 and October 29.

**EXPLORER'S BODY FOUND.** BRISTOL, Tenn., Oct. 12.—A body believed to be that of Blaise L. Harrell of Bedford, N. ## Ex-Chorus Maid to Battle Here Against Pairs' Divorce

Latest photo of EDITH KELLY GOULD, who recently arrived in New York to fight the divorce decree granted in a French court eighteen months ago to Frank Gould, millionaire. When asked if there were a possibility of a reconciliation with Frank, Edith Kelly Gould smiled and said to a reporter "What are the good shows in New York?"—Copyright, Underwood & Underwood, N. Y.

Mrs. Frank J. Gould Will Go to U. S. Supreme Court in International Tangle

NEW YORK, Oct. 12.—Mrs. Frank J. Gould, formerly Edith Kelly, chorus girl, will go to the United States Supreme Court if necessary to fight on the validity of the divorce granted to her by Gould in the French courts. Since her recent arrival from Paris, Mrs. Gould and Gustavus Rogers, her chief counsel, have held daily conferences to map a course of action and new precedents in international matrimonial law are promised when the legal battle is underway.

Mrs. Gould's suit in New York for absolute divorce and heavy alimony was thrown out on the ground that Gould already had obtained his decree in Paris.

This organization formed tonight will be called upon to go into every phase of this situation and we will eventually get some place.

## CIVIL SERVICE AND MERIT SYSTEM PRACTICALLY DESTROYED IN THE PROPOSED NEW CHARTER.

There are several provisions of the new city and county charter, framed by the freeholders committee and submitted for a vote of the people on November 15, which are highly objectionable regardless of the predominate county division danger which the charter constitutes. They are objectionable features of government under any form and for any community.

One of these features is the treatment in the proposed charter of the idea and the establishment of civil service and the merit system in the public business. Civil service is substantially done away with.

The right of appeal from dismissal or suspension by an appointing officer is denied the public employee. All the satisfaction the employee is assured is that he will receive a written statement of the reasons of his dismissal, if he wants it.

By abolishing the right of appeal from dismissal to a non-prejudiced, non-political board for a survey of the employee's case, the one safeguard against a return of the spoils system is destroyed.

One year ago there was submitted at a special election a proposed amendment to the present city charter by which the right of appeal to the Civil Service Board would be taken away from employees in the municipal government. This was the culminating act in a long enduring plan to scuttle the civil service system.

On November 3, 1920, the voters of Oakland rejected the proposed amendment by approximately a three-to-one vote.

The freeholders who framed the proposed "consolidation" charter have aimed to go further in scuttling civil service than the majority of the former Oakland city administration planned in the defeated amendment. The anti-civil service commissioners provided that the dismissed employee might have a hearing before the commissioner who ordered his removal from the service; the new charter denies the employee every existing right, and he can have only a written statement upon request.

Civil service employees are robbed of their right of appeal in section 113 of the proposed charter.

## VITIATING EXEMPTIONS.

But this is not the only assault upon the merit system. Exemptions from civil service under the proposed charter are so extensive that those who have believed in and have worked valiantly to preserve the merit system cannot but be amazed and alarmed.

For those who would care to read the proposed charter for first-hand information a brief reference to these exemptions may be helpful:

All assistants, deputies and employees of the district attorney.—(Sec. 61.)

Such deputies and employees as the city manager may require.—(Sec. 69.)

All assistants, deputies, clerks and stenographers of the city attorney's office.—(Sec. 82 and 108.)

All heads of departments defined in Sec. 215.

All professional employees of the library board.—(Sec. 130.)

All officers and employees of the department of public health, hospitals and social welfare.—(Sec. 132.)

All employees of the recreation commission.—(Sec. 140.)

In addition, in case a vacancy requiring peculiar and exceptional qualifications of a scientific, professional or expert character upon satisfactory evidence that such position can be best filled by a person of recognized attainments, competition may be suspended upon recommendation of the council or city manager.—(Sec. 108.)

In these provisions, the condition that the chief assistants or deputies charged with executive duties shall be exempt from civil service is not to be arbitrarily condemned. It is a debatable question. The best of the argument really seems to lie with the chief of a department who would want his principal assistant under his

complete control. But there is no justification whatsoever for exempting all the petty stenographers, clerks, typists and janitors from civil service so they may the more easily constitute a sector of the spoils system.

It is to be noted that five large departments are exempted entirely from civil service. They are the district attorney's office, the city manager's office, the city attorney's office, the library department, the recreation department and the department of public health, hospitals and social welfare. There is a qualification for the library department, but it is of form only, for the term "professional employee" can be interpreted to include taxidermists, custodians, record clerks, stenographers, etc.

Why should the library board and the recreation department be exempted from the check on expenditures for salaries and the number of employees which the civil service board now maintains? Why should these departments be taken out of the merit system and played with the spoils system?

The same questions as to the department of health, hospitals and social welfare. The health department has to do with the inspection of food, milk and other produce handled in the markets; with matters related to public sanitation and hygiene. Hospitals employ nurses and others whose duty is to attend the sick and afflicted. Social welfare calls to its service numerous men and women who are charged with looking after the public charges. The new charter places the moral and mental testing and the fixing of compensation wholly within the control of a board of health. The check which civil service maintains is abolished.

The health department of Oakland is at present under civil service by charter provision. The recreation department, library, park board and other departments not specifically placed under civil service by the charter have voluntarily adopted civil service control. They found it necessary to operate in for such a genius as Colonel Goethals. It is a virgin field.

That President Obregon may hire Colonel Goethals to advise him and direct internal improvements in Mexico is evidence that the country is becoming stabilized, and that the stabilizer recognized a helper when he sees one. Mexico is a great country to operate in for such a genius as Colonel Goethals. It is a virgin field.

ALL BARRIERS BROKEN.

But what several departments of government have approved by voluntary experiment the framers of the new charter plan to destroy. The scheme to break down all the barriers against spoliation by the political bosses does not halt even with the departments that are charged with looking after the recreation and the health of the children of the city.

Section 106 of the proposed charter, which in part creates the civil service commission, is weak in that it does not give any compensation to the members; does not provide a place or time for the holding of business meetings, or for the necessary equipment to conduct its business. It should be required that the civil service commission give its time regularly, say once a week, to its business.

Section 69 provides that the city manager may remove the chief examiner of the commission, which is a vicious clause designed to place, the civil service under the control of the city manager.

Section 109 refers to promotions but does not specify how promotional positions shall be filled, whether by examination or not.

Section 114 prohibits civil service employees from taking part in political activities, but it does not prohibit the employees exempt from civil service from political activities. These politically-controlled employees may do as they please so far as the new charter is concerned.

Section 115 empowers the Civil Service Commission to make investigation of departments, but it fails utterly to provide any ways or means for carrying out of the recommendations of the commission.

SPIRIT OF THE STATE PRESS.

A campaign for funds for rebuilding the organ in Stanford Memorial church is hinted to be in prospect.

Section 114 prohibits civil service employees from taking part in political activities, but it does not prohibit the employees exempt from civil service from political activities. These politically-controlled employees may do as they please so far as the new charter is concerned.

Section 115 empowers the Civil Service Commission to make investigation of departments, but it fails utterly to provide any ways or means for carrying out of the recommendations of the commission.

There is no provision requiring the various departments to notify the commission of appointments, resignations, discharges, suspensions, etc., of civil service employees, as provided in Section 75 of the existing Oakland charter. There is no limitation of the time of "temporary appointments," which opens the way for a large abuse of the merit system. There is no provision for the checking of the city's payroll by the civil service commission, necessary to maintaining the standardization of salaries of the classified list.

In short, all the important powers and safeguards of civil service are destroyed, and what is left is vitiated by omissions and exemptions.

For one of the best civil service sections in any charter in the United States the freeholders have substituted one of the weakest and most deplorable sections of charter law.

This assault on the merit system alone is sufficient cause for the forthright rejection of the proposed charter. That document has no merit nor combination of merits which compensates for the evil that would certainly follow the success of the scheme to destroy civil service in all the municipal governments of Alameda County.

The national prohibition director says conditions regarding enforcement of the Volstead Act are fine, and that all agents of Government are heeding the "voice of the people." True enough, but some of the agents seem to be in doubt as to what the people are saying and what they mean when they say it.

Nearly all men are more or less hard-headed, but there are very few who are so dense as to believe that the woman voter of California is still on trial—that she must yet justify herself before the male voter.

## NOTES and COMMENT

England is reported to be anxious to resume diplomatic relations with Mexico, but presumably hesitates pending the action of the United States. International courtesy seems to require that no friendly move shall be made by one country toward another that may not have relations with a third—the third being friendly to the first—without friendly understandings. Which would seem to raise the question again why this country does not get in full accord with its immediate neighbor.

Further evidence of how the grape industry of California was ruined by prohibition is afforded by a report from Sacramento that ten carloads of wine grapes recently sold in the East for \$200 a ton. In this connection recurs a story of an automobile tourist who saw a sign displayed on a vineyard, appealing to the general passer-by not to see such a worthy piece of property destroyed by fanatics. The sign had been erected when prohibition was an issue, and had been permitted to remain after the unexpected result ensued of grapes fetching five times as much as they did before.

The important fact is made the subject of a despatch that Mrs. Leahy's cow has been cleared of responsibility for the great Chicago fire. The fact that the blame has been shifted to a Sunday "bauchamal" may suggest that "dry" capital is made out of the incident. However, the fire having occurred fifty years ago, it is but fair to admit that if Mrs. Leahy's bovine has rested under false imputation ever since, it is time that justice is done.

That President Obregon may hire Colonel Goethals to advise him and direct internal improvements in Mexico is evidence that the country is becoming stabilized, and that the stabilizer recognized a helper when he sees one. Mexico is a great country to operate in for such a genius as Colonel Goethals. It is a virgin field.

The sudden halt in the preparations at Marion to celebrate Armistice Day discloses how mistakes may be made and advantage taken in the name of overseas service. The celebration was to center about the burial of a young man claimed to have been an overseas veteran. Word from the war department that no such soldier as the one named was record ended the whole proceeding and exposed an attempt of somebody to cheat.

Upon first thought there may be a disposition to say that "the cure for unemployment is employment" is a trite expression, forged by somebody who is not expert in language; but that may be entirely wrong. A little psychology may have been indulged in, prompted by the realization that this way of putting it would be preferable in some ears to "the cure for unemployment is work."

If royalty has mostly lost its thrones it has not lost the common bond of bringing a suit at law, as must be concluded from the report that Princess Louise of Coburg has sued to recover \$6,000,000 from the estate of her divorced husband. If she gets it she will have a considerable balm for any royal rights that may have been scrapped in the late world cyclone.

Well, if the Arbuckle exposure didn't take some of the movie aspirations out of some of our young folks, maybe the new "morality clause" in the movie contracts will.—Kansas City Star.

WORK OF THE DEVIL.

When, just four hundred years ago, Ferdinand Magellan anchored his little exploring fleet in Philippine waters on the evening of March 16, 1521, there began a period of Spanish-Philippine history that has engaged the attention of many writers and resulted in a voluminous literature that constitutes a small library in itself. In fact, to most people

Philippine history begins with Antonio Pigafetta's splendid diary of Magellan's voyage, and even the better educated and cultured Filipinos know surprisingly little about their country's long and variegated pre-Spanish past.

Spanish colonization in both the Americas and the Philippines was characterized by one feature calculated to drive the historian to despair. The fanatic zeal of the Spaniards for the Christian faith and corresponding hatred for all other forms of belief led them to regard the native writings and art as works of the Devil—to be destroyed wherever found. In Mexico and Peru many old records were preserved, in more or less modified form in the writings of early native Christians and Spaniards half-castes, but in the Philippines the destruction was more ruthlessly thorough and only a few fragments have survived. It cannot be said that such writings did not exist since the early Filipinos were even more literate than the Mexicans; they used syllabaries of Indian origin. One Spanish priest in southern Luzon boasted of having destroyed more than three hundred scrolls written in the native characters. How valuable these old records might have been had they come down to us, we have now, of course, no means of knowing. But the result is that for the great part of Philippine pre-Spanish history we have no trustworthy native material, and the past can be recovered only by pains-taking research in the records of neighboring countries. The fragmentary data gathered there must be patiently pieced together and supplemented by local tradition and archaeological exploration. It is little wonder, then, that most of our foreign historians have been content to write the early Magellan's voyage away on competitive naval programs.

## MASONS IN STATE MAKE BIG GROWTH

Grand Lodge Sanctions Club At Berkeley for University Students, Sons, Daughters of Members of the Order

A Masonic Club for Berkeley, which shall be the headquarters for all students who are members of the order and will be open also to the sons and daughters of Masons, is to be erected near the campus as a result of a decision reached by the Masonic Grand Lodge of California, in session in San Francisco. Grand Master George H. Rodden has appointed a committee to present a plan for the establishing and operation of the club. On the committee are the following:

William H. Waste, chairman; William A. Sherman, senior grand warden; D. B. Richards, grand lecturer of the York Rite; A. C. Johnson, grand treasurer; Francis V. Keesing, representing the past grand masters; Albert E. Boynton, representing the York Rite of Free Masonry; Ernest C. Huetter, representing Islam Temple of Shrines; Charles A. Adams, representing the Oakland Scottish Rite of Free Masonry; William J. Herms, representing the faculty of the state university; F. C. Taylor of the University Masonic Club, and S. M. Shapero, who is to be secretary of this committee.

### MEXICO RECOGNITION.

Recommendation that recognition be extended to Mexico and that fraternal activities be exchanged are included in a report submitted to the Grand Lodge by Past Grand Master Charles A. Johnson, who was sent to Mexico by Grand Master Rodden to make the investigation. The report says that peaceful and normal conditions have returned to the southern republic, and recommended that the lodge take action with the Masonic bodies of Guatemala, Queensland, Chile and Columbia asking that the United States extend recognition across the border.

The convention is the largest ever held by the California Grand Lodge, 1094 delegates being present. A gain of \$315 in membership in the state is reported, bringing the total up to \$5,181. A report of the grand treasurer, William P. Flimer, showed that more than \$30,000 had been expended for the relief of members of the fraternity and their families from other jurisdictions.

Assisting Grand Master Rodden in opening the session were:

Deputy Grand Master Samuel E. Burke of Los Angeles; Grand Senior Warden William A. Sherman of San Francisco; Grand Master's Artisan, S. C. Goss of Elkridge, Grand Lecturer Thomas J. Baker, Grand Secretary John Whicher, both of San Francisco, and Grand Junior Steward Malcolm MacIntyre of Honolulu.

### BOY HURT BY FALL.

ALAMEDA, Oct. 12.—Albert Schiernbock, 6 years old, of 2110 Clement avenue, fell from a slide at McKinley park yesterday afternoon and had his right arm broken. Miss Lyon, director of play, had the lad removed to the Emergency hospital, where he was given first aid treatment.

## Beer Busts Give Way to Frat Teas

BERKELEY, Oct. 12.—A new era in fraternity life at the University of California has arrived. The "bust" rooms have been officially closed, and the stumps which bear the names of students of many years ago have been packed away in sawdust. The fraternity fest has been announced.

Never before in the history of the men's organizations have such affairs been scheduled, and for many years the teas given by the

men have been the chief social feature.

## Two Arrested On Dry Law Charges

Two men were arrested last night on charges of violating the national prohibition act. Antone Freitas, who conducts a soft drink establishment at 7218 East Fourteenth street, was arrested by Police Officer Thomas D. Guire and H. C. Gettschalk. A small quantity of liquor was seized in the

police station.

Police Officer Wallace Canning and E. F. Murphy arrested Hugh Connolly of 426 Seventh street for having two pints of Jackass brandy in his soft drink parlor. Both men will be arraigned tomorrow morning before United States Commissioner Albert M. Hardie.

## TONG GUNMEN SLAY FAMOUS BAI JUMPER

Landing Figure Among Bay Chinese Is Killed At San Jose.

SAN JOSE, Oct. 12.—Ho Sang, for many years one of the leading figures in Chinese tong circles of the bay region, was shot to death in this city shortly before 8 o'clock last night. Eight bullets were fired into his body as he sat in a chair in 651 North Sixth street, in the Oriental district. The Chinaman was a member of both the Hop Sing and Hip Sing tongs.

The Hop Sings and the Suey Sings have been at war for several months, and police lay the killing at the door of the Suey Sing gunmen. All efforts on the part of the authorities last night and early today had failed to throw any light on the perpetrators of the murder, although two alleged gunmen were temporarily held for investigation.

They are Hop Sing men.

Ho Sang was nearly 60 years of age. For years he was the leading "go-between" for the San Francisco police and tong leaders, and some fifteen years ago he was one of the famous hall jumpers cases in the history of California at Martinez.

Hop Sing attorneys stated here this morning that Ho Sang had come to this city this summer for protection.

The aged Chinaman was seen to leave the street and enter the house at 651 North Sixth street just five minutes before the shooting.

A single shot of shots attracted specially equipped police officers, and Chinamen to the building. On entering they found Ho Sang dead, his body literally riddled with bullets.

Not a sign of anyone could be located. Apparently the slayers had entered the place through a rear door, entering Chinatown from the north through a series of vacant lots. It is believed they had an automobile parked on the north end of Chinatown, and quickly made their escape to that machine.

Police vigilance and vigilance on the part of the Chinese themselves was redoubled today as a result of the murder last night.

## Woodland Banks Financing Car- Building Plant

WOODLAND, Oct. 12.—Woodland's three banks have taken up the matter of completing the financing of the A. Meister & Sons car building and automobile plant in Woodland, which is subscribing \$24,000 to complete buildings begun by the defunct Pacific Car Building Company. All told \$61,000 has been raised by banks and popular subscription and in the course of a month the Meister concern of Sacramento will have a plant in actual operation in the first factory in Woodland.

The company already has an order for the construction of a number of motor rail cars for the city of San Francisco and is ready to put a large force of men in this field immediately.

## SECOND WIFE OF RICKEY TESTIFIES IN WILL CONTEST

Widow of Nevada Banker Denies Testimony of Contestants As to Life.

Mrs. Alice Belle Rickey was called as a witness yesterday afternoon as a witness in her own behalf and to deny testimony thus far introduced by the plaintiffs in their suit to set aside the will of Thomas H. Rickey, pioneer cattleman and banker of Nevada. Rickey died on October 10, 1919, leaving his children and grandchildren the bulk of his \$360,000 estate to his second wife, Mrs. Alice Belle Rickey and their daughter, Alice Belle Frost.

Mrs. Rickey was questioned chiefly of incidents in her life and her relationship with Thomas H. Rickey, both before and after her marriage to the ranchman. At her first appearance on the witness stand, when she was called as a witness by the plaintiffs, she was made to relate certain incidents without having an opportunity to explain them. Yesterday, however, she had the opportunity to do so.

Mrs. Rickey said she first met Rickey when she was cook at a hotel at Tonopah, Nevada. He was trying to get his father away from the steps of the hotel, where he had fallen in a drunken stupor. The father was threatening to complain to the police if his son would not leave. Rickey had not bought him a set of false teeth as he had promised. She denied she had been cook in a logging camp, as was asserted by Mrs. Ann Rickey, widow of a cousin of Thomas H. Rickey.

Under cross examination, Mrs. Rickey said she had been married to a man named Fred Crowley in the same year she married Rickey. Rickey's first wife had died two years before. Contestants of the will alleged that it was Rickey's illicit relationship with Mrs. Crowley, and his bringing her to the Antelope Valley, that caused his wife to leave him. Mrs. Crowley, however, denied this as a proof of Rickey's infatuation for his second wife that gave her control over him to the extent that he cut off his children in his will.

Violin Is Loaned to  
Children of School

BERKELEY, Oct. 12.—Presentation of a valuable old violin to the school department to be loaned to children with musical talent but unable to afford the purchase of an instrument was made this afternoon by the Berkeley Welfare Society at the Berkeley Intermediate school.

The violin was the pride and com-

fort of one of the charges of the welfare society who died leaving no heirs. The instrument goes to the charity organization.

Thinking that the most constructive way to utilize the instrument was to give others a chance to learn to play, Mrs. Helen Neal, secretary of the society, took this means of passing on the instru-

ment.

Miss Victorine Hartley, supervisor of music in the Berkeley schools,

chose the Burbank school as the depository for the instrument. Principal James T. Patterson received the gift in behalf of the school at appropriate exercises this afternoon.

## Dental Chair Given To Health Center

ALAMEDA, Oct. 12.—Mrs. Herman Kruse, club and society woman of Alameda, has presented the City Health Center with a dental chair.

After the general meeting, a principal's meeting will be held this afternoon late. The principal speaker will be Lewis B. Avery, assistant superintendent of schools, who will speak on "Methods of Teaching Geography."

## Home Building to Promise Jobs Urged

Steps to encourage building new homes east of Lake Merritt to relieve the unemployment situation were taken last night by the Elmhurst Community Club at its regular meeting at Holman hall, 9410 East Fourteenth street.

Charles H. Seccombe was ap-

pointed to represent the club at a joint mass meeting between the Elmhurst club and the Elmhurst Taxpayers League with the Eastside Board of Trade at night at Redman hall, while Charles H. Spear will repre-

sent the affirmative and W. E. Gib-

son the negative on the question of consolidation.

## Caretaker Injured At Recreation Camp

SOUTH YORK, Oct. 12.—Cecil Christensen, caretaker at the Oakand Recreation Camp here, sus-

tained two fractured ribs and pos-

sible internal injuries when he fell

through the floor of the dining hall under course of construction here.

The accident occurred the fore part of the week. Christensen was

the caretaker at the Hatchet Hospital at Groveland, where he was found that he was suffering two fractured ribs and possible internal injuries. He was later sent to his home, 3226 Central avenue, Alameda.

## Women's Articles Are Burglar's Loot

BERKELEY, Oct. 12.—A wrist watch, string of beads and one dozen women's handkerchiefs formed the loot of a burglar who took advantage of the absence of Chris B. Fox and his family of 1363 Berkeley way last night. When Fox returned home he found the rear door open and the rooms of the dwelling ransacked. Burned matches were left behind by the burglar. Total value of the loot is placed by Fox at \$50.

## Relatives of Dead Oakland Man Sought

Efforts to locate friends of rela-

tives of George D. Moran, 35 years old, supposed to be of Oakland, whose body, according to a New York newspaper, was recovered from the North River there, were unavailing.

According to the dispatch, Moran lived at 521 Twenty-second street, Oakland. He was unknown at that address.

## BENEFIT DANCE.

## SPENCER BEGINS TERM AS 'LIFER' PLANS APPEAL

Former Lake County Pastor  
Convicted of Slaying;  
Is No. 35,440.

SAN QUENTIN, Oct. 12.—John Spencer, former clergyman, who was convicted in Lakeport, Cal., of the murder of his wife, Mrs. Emma Spencer, and sentenced to life imprisonment, arrived at the state prison here yesterday to begin serving his sentence. He was brought here by Sheriff B. F. Shantz of Lake County, who had given him the usual close-cropped hair cut and bath and the prison number 35,440.

At the same time Chief of Police J. N. Black has recovered a diamond valued at several hundred dollars together with other valuable articles belonging to the local women.

The empty purses have also been located, but the sums of money stolen have been used rapidly by the young thieves.

The three boys, none of whom is yet 12 years old, fell into the clutches of the law yesterday afternoon when one of their number, John A. Spencer, former clergyman, for the alleged murder of his wife, Mrs. Emma Spencer, in Lake county, was brought to trial in the district court of appeal at Sacramento, counsel for Spencer announced here today.

The notice of appeal was mailed to the trial court at Lakeport.

When sentenced Monday, Spencer announced he would not file an appeal. He changed his mind, however, after reaching the prison yesterday.

Violin Is Loaned to  
Children of School

BERKELEY, Oct. 12.—Presentation of a valuable old violin to the school department to be loaned to children with musical talent but unable to afford the purchase of an instrument was made this afternoon by the Berkeley Welfare Society at the Berkeley Intermediate school.

The violin was the pride and com-

fort of one of the charges of the welfare society who died leaving no heirs. The instrument goes to the charity organization.

Thinking that the most constructive way to utilize the instrument was to give others a chance to learn to play, Mrs. Helen Neal, secretary of the society, took this means of passing on the instru-

ment.

Under cross examination, Mrs. Rickey said she had been married to a man named Fred Crowley in the same year she married Rickey.

Elmhurst Community Club at its regular meeting will be held this afternoon late. The principal speaker will be Lewis B. Avery, assistant su-

perintendent of schools, who will speak on "Methods of Teaching Geography."

The principal subject before to-

day's meeting was "The Care of the School Children," the topic of an address by Professor Guy S. Miller, dean of the dental college of the University of California.

The officers took the men to the municipal wood yard where they have been staying and searched their property. While looking over Fox's belongings they discovered morphine in the pipe. Coal-tar is being used to bind the affected parts.

The officers will be held in custody until the coroner's inquest is held.

After the general meeting, a prin-

cipal's meeting will be held this afternoon late. The principal speaker will be Lewis B. Avery, assistant su-

perintendent of schools, who will speak on "Methods of Teaching Geography."

# OAKLAND CHAMBER VOICES APPROVAL OF DISARMAMENT

**Resolutions to Be Forwarded to California Senators and Arms Conference.**

Resolutions voicing approval of disarmament from both anti-militaristic and business motives are being prepared by the Oakland Chamber of Commerce and are to be forwarded to the disarmament conference when it meets in Washington next month and also to President Harding, members of the cabinet and Senators Johnson and Shortridge.

The decision to go on record as favoring the limitation of the world's armaments and urging the reduction of expenditures for war was adopted at the annual semi-annual meeting of the board of directors of the Chamber of Commerce last night.

Figures were laid before the board indicating that the world is staggering under a debt for war which will halt progress for years to come unless a stop is put to spending money on arms and munitions.

Discussion of the Pacific naval base in relation to the resolution was engaged in by directors, but it was agreed that if an end were put to war it would be far better to sink local considerations for the good of the whole world.

Nevertheless, it was pointed out by those directors familiar with the naval base situation that it might be expected that the base would be constructed to care for the American navy as well as for the British. Directors declared that facilities for the care of the fleet on the Pacific coast already were entirely inadequate and that something must be done shortly as a measure of economy to provide proper facilities for the warships.

## MUSEUM OF ART OPENS EXHIBIT

**By LAURA BRIDE POWERS.**  
The Forty-first Annual Exhibition of the San Francisco Art Association opens today at a private view and a reception for the friends and supporters of the Museum, recently christened "The San Francisco Museum of Art."

The exhibition reveals a conscious return to the forms of art more in consonance with romantic realism than has been the vogue since Cezanne was lifted on the shoulders of the crowd and imitated in every thing but his style, even his co-worshipers with Henry V. Poor, now in New York, at the shrine of the primitives—or pseudo-primitives still clinging to their language that obviously has failed to reach the heart of the world. And, as in Paris and in New York, the return to more normal expression marks the new show.

The exhibition does not include the standbys of former days—Lee Randolph, Gottscho, Parsons, Ralph Stackpole, Arthur Putnam, who have been a wandering abroad, or Xavier Matisse, Arthur Matthews, both of whom are too busy trying to make a living at that pay to produce.

But their absence is in a measure compensated by the coming-up of younger men and women, some of whom show sure evidences of personal viewpoint and component workmanship. And among them are a group of Eastern painters, including Gustav Jackson, Bertram Nutt, William S. Williams, William Gau, Eugene Nicanor, Florence Williams, Swift and Margaret Herrick.

Armin C. Hansen, Clark Hobart, Ray Benton, E. Spencer Macky, Anne Bremer, Matteo Sandone, Rinaldo Cuneo, Douglas Marshall, Frank Van Sloan, Gertrude Partington, Albright, Almira Judson, and Rowena Weeks Abby and among the regular contributors, with twenty or more competitive strangers adding a note of interest to an exhibition that less many notches higher tan last year's show.

One marvels at the absence of color in the exhibition. A reflex of outlook? If so, there's good reason, for the year has been a long, gray stretch for the creator-folk.

The exhibition will be open to the public tomorrow, and for a month thereafter from 10 a.m. to 6 p.m.

## Contractor Puzzled, Loses Court Suit

The "cost plus" system may have been considered monstrous by the government when it was trying to build up the building of ships with which to fight Germany, but it worked badly for F. E. Allen, contractor and builder. This was in spite of an increase in his compensation from \$1800 to \$4400.60.

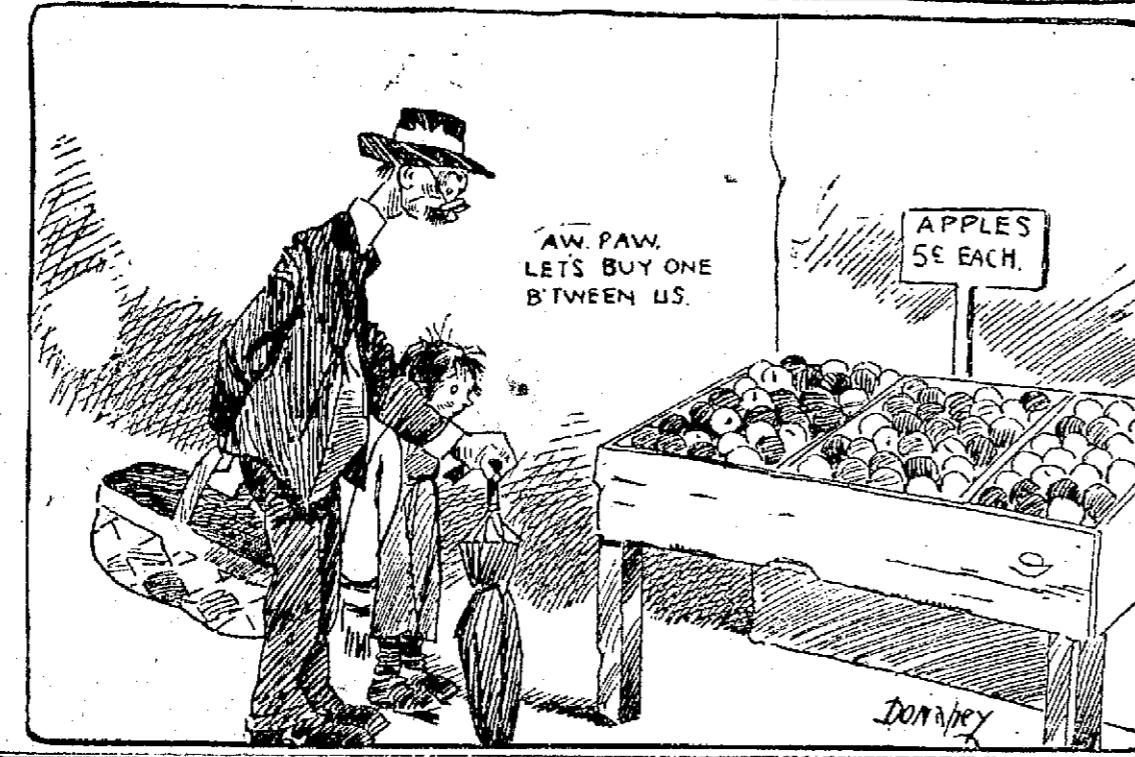

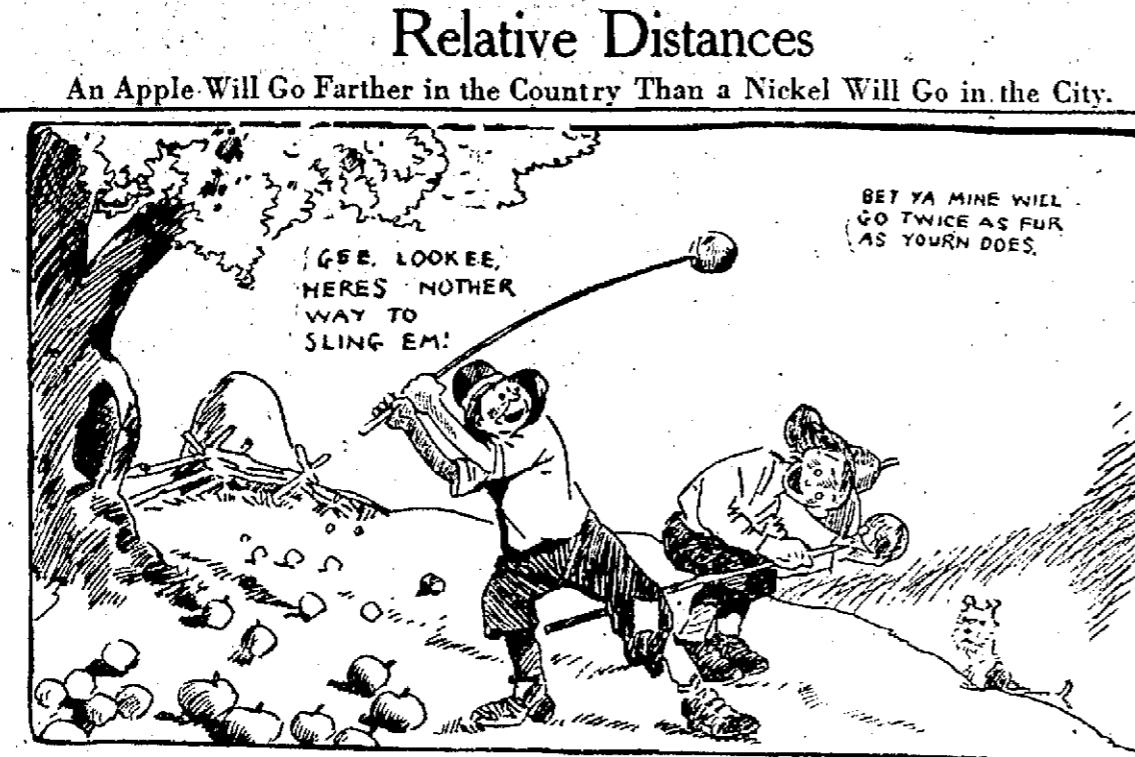

At least Judge Harry W. Pulifer refused to award him \$149,70 he sued C. L. Gibbs and the latter's wife to recover on a contract to make alterations in premises owned by the Gibbs.

The testimony showed Allen had agreed in writing to do the work for \$1800, including his own compensation, but that numerous changes were made in the plans which increased the cost materially. Allen was to get 10 per cent of the actual cost of the material and work. He testified he could not tell how much of the increased cost was due to changes or just how much he was entitled to. Judge Pulifer said if the plaintiff did not know the court could not be expected to give judgment for the defendants.

## New England Folk Plan Old-Time Party

The California New England Association, Inc., will give an old-fashioned party in Danish Hall, 146 Eleventh street, near Madison, tomorrow evening, at 8 o'clock. It is announced that many of the guests will be dressed in the styles of long ago. While old-fashioned costumes are not essential, all guests are urged to wear whatever old-fashioned pins, heads, shawls, earings or other old-time effects they may have in their possession.

Old-fashioned dances will be features of the gathering and doughnuts and cider will be served. A literary and musical program, conforming in detail with a bygone period, will also be given.

## Women Hear Addresses on County Welfare Work

HAYWARD, Oct. 12.—A large and interested audience of Hayward women assembled at the Firemen's hall here yesterday afternoon to hear of the work of the Alameda County Welfare League. Mrs. Helen Sweet Artieda spoke under the auspices of the Hayward Center, California Civic League.

Alameda did not touch on the subject of city and county consolidation, according to Mrs. Artieda, president of the local branch of the League, but confined herself to an illustrative description of the six phases of welfare work now under way in this county.

Mrs. Artieda described in length the work of the California Girls' Home in Alameda, the Frances Willard W. C. T. U. boarding home for working girls in Oakland, West Oakland Day Nursery for colored babies, the general work of the League with emphasis on the social workers, and the great service rendered by the Travelers' Aid.

During the noon hour Mrs. Artieda visited the plant of the California Consulting Company and addressed the workers there on the subject of welfare work and its aid to the employed women.

Following the address by Mrs. Helen Sweet Artieda at the meeting of the Hayward center of the California Civic League here yesterday, an announcement was made by Mrs. J. H. Turner, president of the local branch, that Monday evening, October 24, in the Sons' hall in Hayward, all local women would be privileged to hear a discussion of the city and county consolidation movement together with an exposition of the proposed plan.

Ex-Governor George C. Pardee will speak in favor of the adoption of the plan.

## Hayward Dorcas Society to Have Big Food Sale

HAYWARD, Oct. 12.—If the ancient axiom that "the way to man's heart is through the stomach" be true, then the Dorcas Society of the Hayward Presbyterian church is due to win a great many hearts in this community on Saturday next.

Today the announcement has been made by Mrs. A. Pimentel that the Dorcas women have planned a cooked food sale. The reputation of the Dorcas Society cooks, long noted in Hayward, will again be upheld before the local epicureans.

Saturday will see a mighty army of hot rolls, pies, cakes, home-made bread (the kind that mother used to make), sweetmeats, cooked meats, delicious salads, fancy dishes of all sorts, winning the hearts of the Hayward connoisseurs and swelling the building fund of the Presbyterian church.

The sale will be held on Main street, which will commence at 10 a.m. sharp and continue until all the food is sold. It is understood that in former events of this nature it has been advisable to be early.

On the committees who are assisting Mrs. Pimentel are Mrs. R. M. Manson, Mrs. Ralph Ash and Miss Maude Lawrence. Contributions toward the sale have been plentiful and a large supply of everything will be on hand Saturday morning, states Mrs. Pimentel.

## N. Y. Loses Tax On \$17,000,000 Estate

NEW YORK, Oct. 11.—Only \$11,000 out of the \$17,000,000 estate of Mrs. D. C. Gates, widow of John W. Gates, can be taxable in New York, because Mrs. Gates was a resident of Port Arthur, Texas. Surrogate Foley has decided in confirming the contention of the executors of the estate. Otherwise the entire \$17,000,000 would have been subject to the state transfer tax.

## Harvesting of Rice Crop on In Yolo County

WOODLAND, Oct. 12.—The past few days have started the rice harvest in earnest in Yolo county, where there are 20,000 acres. Brick McNeill and J. D. Hyde, who planted a seed known as the Eureka, propagated by them, have their entire crop harvested and in the warehouse. Other growers who have planted the Japanese varieties are rushing work to beat out early rains.

Indications are that the entire crop here will be harvested and in the warehouse before the winter season develops any serious drawbacks. Binders are busy in every section of the county. The yield this year, because of the heavy rain, is one-half less than in previous years, and the price already shows a tendency to 3 cents and better.

A short potato crop in some parts of the state and west has given the rice growers courage, because rice is a recommended substitute.

## W.C.T.U. Raises Fund Selling Memberships

Memorial memberships of \$25 each and life memberships at \$10 each in the Alameda County Womans Christian Temperance Union will be appropriated to the fund for the Frances E. Willard Home for Girls in Industry in West Oakland.

An illuminated memorial book containing the roll of life and memorial members, will be placed in the home.

A definite program of work for the year was adopted at a meeting of the county union this week. Payment of \$125 made the following life members in the state: Mrs. Clara Miller, Mrs. Lucy Harbard, Mrs. C. W. Johnson, Mrs. Carrie Merrill, Mrs. M. J. Young.

Mrs. C. W. Johnson, county president, will represent the county at the state convention in Fresno.

## 'SAFETY FIRST' POSTERS CHOSEN

Selection of a poster to be used during the Safety First week, which will be carried out beginning with the opening of the convention of the International Traffic Officers Association here on October 23, was made yesterday by a committee appointed by the Oakland Advertising Club which met at luncheon at the Hotel Oakland.

The hundred posters from which the committee chose the prizewinners were made by high school students. The first prize of \$35 was awarded to Theodore C. Strohman, High school for a poster showing a traffic officer directing traffic at a street corner. The second prize of \$15 was awarded to William Turner of Oakland High school, and the third, \$10, to Carlton Wickham of Alameda High school. Prizes of \$5 each were awarded to William Vlugh, Oakland High, and Ernest Kroger and Ray Smith, Alameda High.

The contest was sponsored by the International Traffic Officers. The Advertising Club committee consisted of R. C. Bitterman, Daniel Thompson and W. F. D. Brown.

Daniel Harris served as a pinch-hitter when James Lynch, who was scheduled to speak, failed to appear. Harris related some funny stories in reminiscence of his advertising experience.

The Advertising Club will meet on Monday at noon instead of Tuesday as originally planned.

The day has been designated "newspaper day." William C. Thompson, director of the bureau of advertising of the American Newspaper Publishers' Association, and William F. Rogers of the Boston Transcript will address the club.

## YOUNGSTER HIT IN REHEARSAL OF WILLIAM TELL

ALAMEDA, Oct. 12.—Claude Smith, 840 Lincoln avenue, and his chum, Jack Frazer, 638 Lincoln avenue, played William Tell yesterday. The performance did not come off as historically portrayed; however, for instead of hitting the apple on young Frazer's head, Claude plucked it from the cheek with a misplaced shot from his air-gun. The Frazer boy was treated at the Emergency hospital and "William Tell" Smith had his gun seized by the police.

The shooting here will be harvested and in the warehouse before the winter season develops any serious drawbacks. Binders are busy in every section of the county. The yield this year, because of the heavy rain, is one-half less than in previous years, and the price already shows a tendency to 3 cents and better.

## City to Build Storm Sewers, Bids Too High

LODI, Oct. 12.—Having rejected the ten bids received for constructing the storm sewer project, the city trustees have decided that the municipality will do the work itself, believing that it can carry out the undertaking at a figure equal to the lowest bid received, besides giving employment to many home men. The lowest bid received was \$16,327. The excavation will be 100 feet wide and one-half foot in depth. No time has been set for commencing the work, but it is expected that no time will be lost, as it is imperative that the sewer be built without delay.

The city to build storm sewers, bids too high.

A sightseeing tour of the district is on the program and a barbecue will be a feature. The convention closes Friday.

## MAIL MAN TOO LAZY TO WORK, BURNS LETTERS

DENVER, Oct. 11.—More than 10,000 letters addressed to Denver residents have been destroyed during the last three months by Lester W. Coats, 23 years old, a substitute mail carrier, according to an alleged confession made by Coats to Captain of Detectives Rinker.

According to Captain Rinker, a quarter of a ton of letters were found in the basement of Coats' home. Captain Rinker said the man confessed "because he did not want to work more than eight hours a day."

Coats also is alleged to have confessed to burning thousands of letters he had no right to do so to the trouble of delivering them. He also is said by Captain Rinker to have confessed taking large sums of money from letters.

## C. OF C. LEADERS TO DISCUSS PLAN OF ORGANIZATION

Delegates to Hear Arguments for Union of Various Boosting Associations.

HAYWARD, Oct. 12.—Representative business men from Hayward, San Leandro, Centerville, Niles, Irvington, Decoto, Newark, Alvarado and Mission San Jose will gather at the Hotel Belvoir in Niles this evening for the organization meeting of the Lower Alameda County Chamber of Commerce.

A. W. Bean, president of the Hayward Chamber, and E. E. Linticum, businessman of San Leandro and chief sponsor of the county organization, will present the tentative consolidation plans to the assembled delegates.

The movement had its origin in a meeting of the Hayward Chamber of Commerce at the Daisy Farm Inn at Hayward on September 15. Many present at the session spoke in favor of the proposed co-operation of all the Chambers of Commerce in the lower end of the county.

President Bean was authorized to name an organization committee to take the matter up in detail. On this committee Bean named the following: A. S. Weaver, E. E. Linticum, of San Leandro; F. V. Jones, Judge Ralph Richmond, of Niles; O. N. French, Fred Parker, George Parks, Martin J. Madison, of Hayward; Fred Dusterhoft, Professor W. Wright, of Centerville, and Henry May of Decoto.

Since the original formation of the committee the following representative business men have been added: Henry Patterson, F. T. Hawes, of Centerville; Benjamin Murphy, of Niles; James Graham, of Newark; F. Harvey, Ralph H. M. Springett, of Alvarado, and I. H. Whiffen, of Mission San Jose.

The meeting promises to be the most interesting gathering ever held among the businessmen of lower Alameda county and the formation of a strong co-operative organization is prophesied.

### Listen, World

Have you a CHILLI-BLANTE? In your nose inclined to turn into an ICICLE? WILL GOOSE FLESH CRACK YOUR COMPLEXION? If so, do not read the following shiny yarn or your beauty will be ruined. Gregory, the author, is only ten years old. But I'm plum-mudin' positive that he spent several of his previous lives sailing in the bounding main under the Jolly Roger.

### THE BLOODY DUKE OF ALHAMBRA.

By Gregory Benninger, 10 Years Old,  
2128 Sixth St., Berkeley, Cal.

Many years ago there lived a rich man in Spain, the Duke of Alhambra. With him lived his proud son, of whom he was very proud. He was always giving his rich presents of gold and silver. He disappeared from his home many months at a time and always came back with more riches.

One day when the father was away the daughter met the Prince of Madrid and soon they were married. They decided to sail for the new world that had been lately discovered.

The second day at sea they saw a ship coming toward them. Suddenly they saw that the ship's sail was a skull and crossbones and they knew it was a pirate ship. The pirates overtook them and climbed aboard. They fought bravely but were defeated.

The wicked pirates started to make the captives walk the plank, but the Princess of Madrid was about to walk the plank she heard some one say, "Pull her in," and looking around saw that her father was the captain of the pirates. Looking wildly about in search of her husband she saw him bound and lying on the deck. She ran over to him and broke the ropes and he stood up.

The ship was approaching an island and as they drew near her father gave orders to drop anchor, then her father and part of the crew went ashore.

They went up into some woods and disappeared.

The daughter and her husband ordered a boat lowered and some of the men to row them to shore. They followed the path taken by the pirates and soon came to a rock in the middle of the river. As they looked they saw that the Captain was being held a prisoner and one of the men was guarding him. When the hole was dug they threw in the bags of treasure they had brought with them and then making the captain climb to the top of the rock one of the men killed him with a gun and he fell down into the hole.

The Princess and her husband on seeing this turned and ran to the boat and were rowed out to the ship.

They pulled up the anchor at once and set sail, telling the crew that was left on the ship that their comrades had killed the captain and intended to keep all the treasure for themselves.

They asked them to help them, they would reward them and they should come back and kill the pirates on the island.

On arriving in Spain the Prince got a small army of his people and returned to the island.

In the battle that followed all the pirates were killed and the Prince found a map in the pocket of the leader that told where the buried treasure was to be found. He and the Princess dug up the gold and jewels and they sailed back to Spain, where they lived happily for many years.

THE END.

### ABOUT WOMEN

In East India a woman of high caste leads a life of recluse.

On the 6000 students in attendance at the University of Berlin, in Germany, 1300 are women.

WEDNESDAY, OCTOBER 12.

Christopher Columbus discovered America on October 12, 1492. It is rather peculiar that in 1710 Jonathan Trumbull, Whig leader and patriot, was born and that in 1813 Lyman Trumbull, senator, and one of the Union leaders in the Civil War, was born. George W. Cable, who wrote stories of the Creoles and who still is a favorite with a number of or less violent readers, was born on this day in 1844. On the same day Charles King, writer of soldier stories, was born. The Ram Manassas attacked the Federal fleet in 1861.

The place the campus is not the place for "The Queen of Sheba," telephones R. Spankeyvintz. "The campus is a democratic institution."

To have his horse throw him, to roll on him and to finish by kicking him on the head, was the exasperating and painful experience of Carroll Hale of Burns Valley last Sunday afternoon. It seems that Carroll had recently invested in a cowboy hat (the large Beaver type). He already possessed a saddle, spurs and a horse that he claimed was some pumpkin among stock. The clothesline would serve fine as a rata, and so the outfit was complete. Some-

one wanted a horse to ride; someone whose wishes must be considered. Here was the tool-for chance to demonstrate his skill. He started rope-swinging—round rough; horns down; rider cut and bruised and someone, went home, disgruntled.

The Kansas minister who says he would rather drink red ink than near beer is entitled to sympathy. One knows just how he feels.

Still he might have made a little reservation as to what he meant by "red ink."

**BRINGING  
OUT-OF-TOWN  
DOLLARS INTO  
OAKLAND**

**PAYROLLS** provide the foundations upon which communities are built. Increasing payrolls measure not only the success of an industry, but the success of the city or town of which it is a part.

**IT IS WITH** real pride that THE NATIONAL ICE CREAM COMPANY makes the announcement that its Oakland plant is now supplying a great many outlying counties with Alameda County made National Ice Cream.

**THIS** means that outside dollars are now coming into Oakland to increase our Oakland payrolls.

**WOMEN TO WORK  
FOR BOND ISSUE**

A campaign to boost the soldiers' legislative bond issue, passed by the last session of the legislature and which the voters of the state will be asked to ratify in 1933, was organized yesterday by the Women's Auxiliary of Oakland Post No. 5 of the American Legion at a luncheon at the Puritan Hotel.

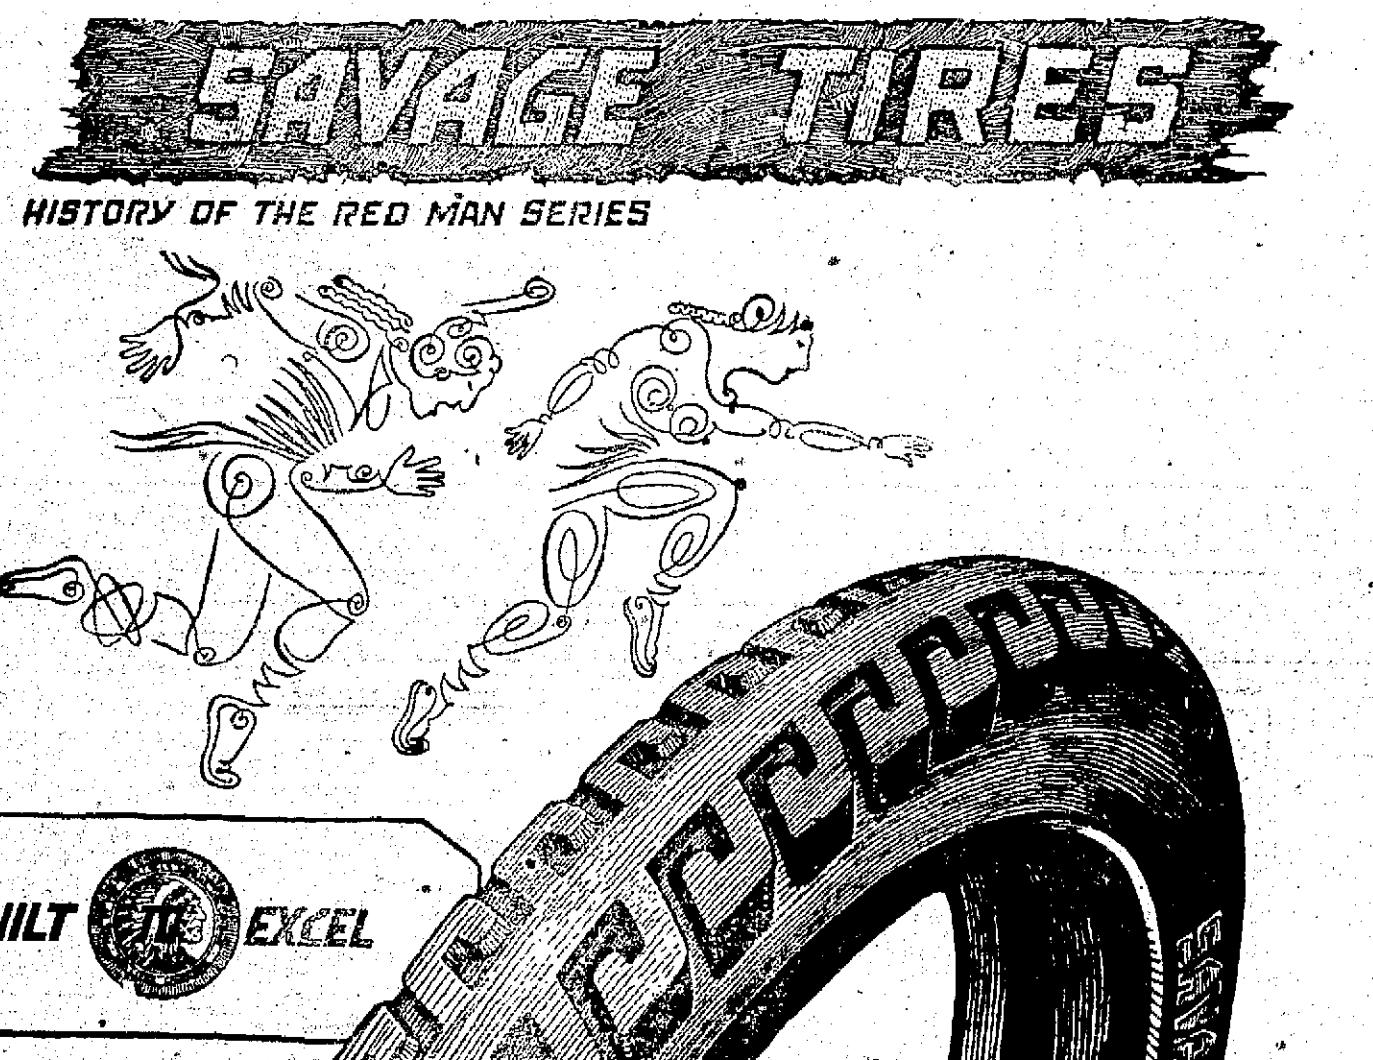

The various bills that were passed at the last session of the legislature affecting ex-service men were outlined and explained by Assemblywoman Clifton Brooks and A. W. Chase, both of Oakland Post No. 5, American Legion. A campaign to urge the voters to ratify the measures that will be placed before them for their consideration will be carried out by the sisters, wives and mothers of the Legion members. Among the women who pledged their aid and support were: Mrs. Eva Short, Mrs. A. M. Homer, Mrs. M. M. Palmer, Mrs. Ida Jones, Mrs. L. E. Olson, Mrs. R. Stipe, Mrs. L. Kessler, Mrs. E. Lawrence, Mrs. E. Cooper, Mrs. C. L. Moore, and others.

The cooperation of various ex-service men's auxiliaries has been requested by the Legion's auxiliary to aid them in the campaign.

**Farmers Face Good  
Times, Says Wallace**

OAKLAND, Oct. 14.—The worst of the depression which has seriously affected farmers throughout the country is over, according to Henry C. Wallace, secretary of agriculture. Secretary Wallace made this prophecy today in an address before the convention of the National Implement and Vehicle Association here.

**THE WINNING OF RED BIRD**

BY "INDIAN" MILLER

Thunder Bird was a great runner of his tribe. He thought no one could beat him in a race. With the idea of beating all the best runners of other tribes, he set out in his best regalia. He went among many tribes; and he beat all others wherever he went until he reached the tribe of the butterfly women. There he learned that the best runner of the tribe was a beautiful girl named Red Bird.

Thunder Bird fell in love with Red Bird and challenged her to run a race with him. Red Bird had announced she would marry whoever could beat her in a foot-race. When she heard the challenge, she said, "Thunder Bird, you will first have to show me that you can run. To prove that you can run fast enough to exercise me, you will first have to run a race with the swiftest runner among our men with heavy stones tied around your ankles."

So Thunder Bird tied stones around his ankles; and with that handicap he beat them all. But he was greatly exhausted from carrying the weights on his ankles. Red Bird did not love him; so no sooner had the stones been removed from his ankles than she urged him to run. She thought that she could certainly beat him while he was tired.

Thunder Bird said, "Red Bird, you can even fly and I will catch you."

For a while Red Bird led the race; but Thunder Bird was beside her before the race was half over. Then Red Bird tripped him. But she could not fool him that way twice; and the next time he leaped high over her foot and won the race.

So much did Red Bird admire his wonderful endurance that she really loved him then.

**Hand Is Outlined  
On Threatening Letter**

Mrs. J. B. Echols, colored, who lives at 96 Pearl street, in the upper lake section, today turned over to the police a letter she received last night signed by a person who claimed membership in the Ku Klux Klan and giving her the alternative of giving up her home within two weeks or being killed.

Officers, who found the letter lying on the front porch of her residence, it was marked "important" and read:

"It has been hereby declared by the Ku Klux Klan that you will either move at once or die. You are given two week's notice and if you

are not out by then you will be done away with. Sig: The Man Who Knows, Ku Klux Klan, also Blackbird."

The message was written on common tablet paper. The writer furnished a definite clue for the police by marking, in pencil, a fairly accurate outline of his hand at the head of the sheet of paper.

# PACIFIC FOOD PRICES AND WORLD'S COMMERCE

## WINE GRAPES GO TO \$140 TON IN OAKLAND SALES

Produce Market Busy Despite Holiday; Citrus Fruit Marks Gain.

Considering the coincidence of the Jewish fast days and the legal holiday, the Oakland produce market experienced fairly active trading today, but at lower prices in a number of cases.

The outstanding feature of the market was the advance in the price of fancy Zinfandel wine, which was quoted at \$140 a ton, the highest price reached in Oakland this year.

With the return of lesser supply, citrus fruit from the San Joaquin valley, about \$80 being quoted at the vines, yards. There were some offerings of cheaper muscats and Tokayas today.

All but one canneries in the oakland area had been taken down from the tomato market and prices have weakened to quotations of from 50 cents to a lug with small offerings to \$1 a lug with the market offering of good grades of peaches.

There will be new grapefruit in the Oakland market by the end of the following week or the first of next week it was predicted today.

Oakland arrivals included three cars of melons, one of melons and two of apples. The apple sales have improved here somewhat on prospect of advancing prices. An early rain, however, would result in market closing of the market as it would practically stop many of the late garden and field deliveries, including melons.

A small offering of southern eggplant in market has been unprofitable in the face of Livingstonton fruit diversion, so that no further commission attempts by southern shippers in that direction are expected. Livingston are settling down to 75 cents a box.

A statement by the California Fruit Distributors estimates the following fruit shipments for this season up to October 8 as compared with last year:

	1920	1921
Cars	Cars	Cars
Cherries	494	665
Apricots	312	251
Peaches	3,100	2,600
Plums	3,000	2,600
Pears	4,120	3,875
Grapes	13,520	16,042
Miscellaneous	2,500	134
Total	25,361	23,333

WINE GRAPES GO TO \$140 TON IN OAKLAND SALES

DIMINISH & FINISHED

OAKLAND stockholders of the Pacific Gas & Electric Company will assemble in an open meeting at 8:15 o'clock this evening in the grill room of the Hotel Oakland, there to hear President W. E. Creed, General Manager John A. Britton and Treasurer A. F. Hockenbauer discuss the development and prospects of the company. The meeting will be the second of about thirty planned by the company in its novel campaign to bring its security holder into personal touch with operations.

The initial meeting which was held in the grill room of the Hotel Oakland, it was expected today that the Oakland meeting would be equally large.

In addition to the tasks of the company executives, it is expected to exhibit pictures of the Pit River project, which P. M. Downing, vice-president in charge of electrical construction and operation, will explain in person.

The outstanding feature of the market was the advance in the price of fancy Zinfandel wine, which was quoted at \$140 a ton, the highest price reached in Oakland this year.

With the return of lesser supply, citrus fruit from the San Joaquin valley, about \$80 being quoted at the vines, yards. There were some offerings of cheaper muscats and Tokayas today.

## SCOUTS COLLECT \$9725 IN FIRST 2 DAYS OF DRIVE

### Perry A. Haviland, County Surveyor 15 Years, Dies

Pioneer Official Succumbs After Illness of Several Months.

Campaign Being Strenuously Waged for \$25,000 by Next Saturday.

The grand total in the Boy Scout Drive, as revealed in figures made public today at a Hotel Oakland luncheon, is \$12,085, or about half of the \$25,000 needed. Of this amount the central committee raised \$1,000, and the balance came from the various teams.

The Boy Scout drive today was on its third day, with \$9725 collected during the first two days. The total for yesterday was \$3171. The Scouts are asking for \$25,000 in this drive which is to end on Saturday.

Abe Leach, head of the campaign committee, said at yesterday's luncheon that the members of the teams must not become over enthusiastic at the results of the first two days' work, but must exert themselves to the utmost in order to "put it over." Leach himself is actively canvassing as well as directing the campaign.

#### TOTALS FOR TEAMS.

Yesterday's figures in detail were as follows:

Division A, team No. 1, Captain H. J. Johnson, \$32; team No. 2, George Marwood, \$220; team No. 3, Paul Reher, \$342; team No. 4, Warren and Reno, \$230; division total, \$784. Division B, team No. 6, Baker and Jewett, \$105; team No. 7, Hugh Carpenter, \$60; team No. 8, Harry Kelton, \$55; team No. 9, Major McCaughey, \$292; division total, \$512. Division C, team No. 11, L. S. Hensley, \$100; team No. 12, Joseph Gardner, \$22.50; team No. 13, Fred Kistemann, \$35; team No. 15, Orman Lutz, \$80; division total, \$222.50.

Division D, team No. 19, Tudor and Dodge, \$112.50.

Division E, team No. 21, Chamblin and Tooley, \$110; team No. 22, J. J. Stegg, \$25; team No. 23, American Legion, \$155; team No. 25, H. K. Schreiter, \$90; division total, \$380.

#### ITEMS ON BUDGET.

Leach explained in detail the purposes to which the money collected by this campaign will be spent. He declared \$2,000 is needed for headquarters maintenance, \$300 for field work and \$800 at the camp.

The headquarters work, he explained, included telephones, publicity, education office operation and equipment, salaries, etc., and the regular support to the national organization.

The field work fund, he said, covers maintaining school salaries of teachers in the field and other items.

The \$800 needed for the camp is to be used for making payments on the property and for developing the University of California.

County Surveyor PERRY A. HAVILAND, who died last night at his home, 910 Oxford street, Berkeley, after an illness of a few months. Haviland had occupied the position of county surveyor of Alameda county for the last 15 years, and served in an engineering capacity here for many years previous to his accession to the county surveyor's office. He was 56 years old. He is survived by his widow, a married daughter, and a son who is a student at the University of California.

In spite of his failing health, Haviland was in the habit of going to his office to attend to his duties whenever he was able to do so. George A. Posey is chief deputy in the surveyor's office.

#### PLAYED ACTIVE ROLE.

Haviland enjoyed the reputation of being one of Oakland's representative citizens, having played an active part in official circles in Alameda county during many years of continuous service in an engineering capacity.

He was born September 8, 1865, in Fort Dodge, Iowa, in which city he acquired a public school education, later entering the Iowa State University, where he took a thorough course in engineering. Completing his studies at the university, he entered the service of the Union Pacific Railway company in the engineering department. After spending several years in engineering work for the Union Pacific, he came to California.

His first engineering work in California was the establishing of a private engineering office in San Francisco, where for two years he did work of various kinds in line with his profession, serving as consulting engineer, draftsman and in similar capacities.

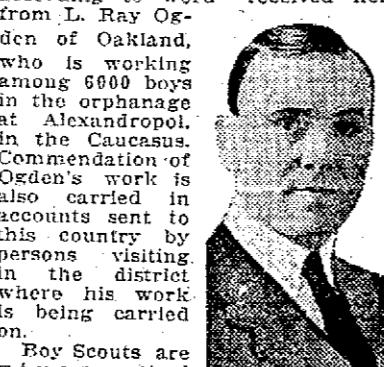

He came to Oakland from San Luis Obispo. Shortly after his arrival here he accepted a position in the office of the city engineer, retaining his position several years.

In the past quarter of a century, Haviland has been connected with the department of engineering in various capacities in Alameda county. In his capacity as county surveyor Haviland had supervision of public improvements. Among these was the county boulevard which he planned.

Haviland's marriage to Miss Anna Gillette of San Francisco, who comes from a prominent English family, took place in that city in 1885. There are two children, a daughter, Marlan, now married, and a son Carlton, who is a student at the University of California.

The field work fund, he said, covers the retaining school salaries of teachers in the field and other items.

The \$800 needed for the camp is to be used for making payments on the property and for developing the

L. Ray Ogden, in actual charge of the guarding of the Near East relief compound, including about thirty buildings, according to the reports. This is done throughout the day and night. Ifred men serve as sentinels.

The following is from a letter recently received here from Ogden:

"Having observed all the bad odds makes me think that Armenia, Russia and Turkey are pretty safe places after all—never felt any more secure. Even at camp the other night, when the night guard fired three shots I turned over and went to sleep again, waiting till morning to ask if he'd been shooting. Night after night I go to bed a night without hearing rifle shots, but those are mere pastimes over here—just like the ball games on the corner lots at home."

Just after a camping trip on Mt. All Gurz with some boy charges, Ogden writes of one of his enthusiasms he is about to share with them.

"We had just come away fine British mullets and as soon as I got back I am going to teach some of the boys to do some good old American plowing and in that way get some ground ready for good mellow gardens of large dimensions next spring. Folks here say that they have not seen anything take so rapidly and go so like wildfire as my gardening. It keeps me occupied all the time. Our gardens are now running into the acres."

### Missing Boy Sought By Alameda Police

ALAMEDA, Oct. 12.—The Alameda police are wondering where Albert Andrus, 10 years of age, is spending his nights. Albert ran away from his home, 322 Lincoln avenue, October 7. Several times he has been seen by his friends since then the last time being when he was playing basketball with a number of boys near the Masonic station.

Young Andrus is described as having red hair and being of fair complexion. The spirit of adventure seemed to be the only reason for the boy's departure from home.

### Memorial Service For U. C. Student

BERKELEY, Oct. 12.—Memorial services for Guilford McKibben, 21, former university student, who threw himself under a train at Delair, N. J., last week, were held at 4 o'clock this afternoon at the California Crematorium. Rev. Albert Elbright conducted a short service.

Young McKibben was a student at Berkeley High school and formerly served in the navy. He is survived by his parents, Mr. and Mrs. J. H. McKibben, 1123 Amador avenue; two brothers, Herbert and J. W. McKibben of Berkeley, and a sister, Mrs. Vernon R. Churchill.

## BARZEE IS GIVEN FURTHER TIME TO COMBAT CHARGES

Accused Business Manager of School Department Makes Partial Defense.

Tendering a partial defense against the charges brought against him by the report of the efficiency expert and the educational advisory committee, Business Manager Lloyd Barzee last night requested that the Board of Education give him an extension of time until next Tuesday to answer. The extension was finally granted by the board after long argument.

Barzee is accused of hiring, promoting and retaining employees without constituting the board of education, the civil service board, or both. The list embraces nearly 60 employees, and the charges were specific in each case.

Barzee, allowed 24 hours after the Monday night session of the board, pleaded that he could not answer the charges in so short a time.

A resolution introduced by Chairman Boyle that the civil service board be requested to transmit information regarding every case involved was deferred indefinitely, and Barzee's short answer to the charges was read.

#### REPLIES TO CHARGES.

Barzee's reply to the series of charges was, in part, as follows:

"Many of the instances mentioned in the report of Efficiency Expert N. W. Cool are based upon entirely false premises, for example:

"(1) Secretary to the superintendent created a pedagogical position created by the Board of Education as a pedagogical position and never was intended to be a civil service position.

"(2) Assistant business manager is a position created as a civil service position, but was never filled as such. Mr. Rice was appointed as a teacher and assigned to work in the business offices, and later the board reclassified this pedagogical position.

"(3) Payroll clerk—This position was formerly a civil service position, but when Mr. Gilkey resigned the office was not filled as a civil service position. Mr. Vosper, a regularly certified teacher, was appointed as a pedagogical employee and not as a civil service employee.

"(4) Secretary to the superintendent has never been considered a civil service position and has always been filled by a regularly certified teacher, selected from one of the faculties of the Oakland schools.

#### FURTHER TIME NEEDED.

"Referring to the ten paragraphs on the first page of the report, it is impossible for me to answer those in the limited time allotted, because, for example, in the hurried investigation that I have made, I am informed that as to many matters set out in the detailed report of Mr. Cook, attached to the report of the chairman of the education advisory committee, that Mr. Cool is mistaken as to the existence of certain facts and conditions."

#### MISSING BOY Sought By Alameda Police

ALAMEDA, Oct. 12.—Mrs. Matlie E. Tamm, Alameda artist living at 2618 Santa Clara street, is awaiting the arrival in this city of Francis B. Moore, Middle West attorney, who is on his way here to claim her as his bride.

The wedding ordinances were discussed from all angles and various minor changes were practically agreed upon by the time the meeting ended. These include specifications for fire walls and draft closers in new buildings.

The original report of the Fire Underwriters of Oakland alleged that the question of protection is not satisfactory and admitted that "while the arterial water system is strong in the mercantile district, it is elsewhere mainly weak in carrying capacity."

In studying the preservation of the redwoods, and has also planted trees from all parts of the world, in the land behind the agriculture building. The specimens are principally of trees indigenous to foreign soils.

#### LOWER RATE PROMISED.

The underwriters said that if the changes are made, in the general district bounded by the estuary, Telegraph, Second and Lake Merritt, other sections, it may be intimated, might be made in other localities, and in the downtown district an even greater drop than five per cent is possible "if the risk is shown to be lower."

"Altogether," said Commissioner Colbourn, "it was a very friendly and successful meeting. We look forward to the coming year in Oakland enjoying a better fire rate."

Among those at the conference were William Anderson of the National Board of Fire Underwriters, Engineer Robinson of the State Board, and representatives of the Merchants' Exchange, led by Emmett H. Hart. The city officials included City Attorney Leon Gray, City Electrician Hardy, Fire Chief McGrath and representatives of the building department.

#### 3445 AT YALE.

NEW HAVEN, Conn., Oct. 12.—Enrollment figures for Yale university, announced tonight, show a total of 3443 students who are candidates for degrees. This is an increase of 200 over a year ago.
